

Feed Mixer ZV 2600

- Ingredients don't lose nutritive properties
- Cuts materials uniformly such that it gets homogeneously mixed
- Gently processing, keeping mixture soft
- No sprockets and chains required
- Low costs of maintenance

The vertical mixers are designed specially to facilitate, to improve and to optimize the mix and punctured of the pasture for the cattle, besides to transport and distribute to the feeding-places or any place that is needed, and it can be operated by a tractor or mounted on a truck.

5 Jobs at the Same Time

The Vertical Feed Mixer has a valve to interconnect the hydraulic system to the tractor with only two hoses, with the option to vary depending on your needs.

Simple discharge

It is equipped with a vertical auger designed to carefully cut and mix the ingredients quickly, without losing any nutritive properties, and keeping the mixture soft for easy chewing for cattle. In addition this system reduces the impact on the equipment which makes it more durable.

Raised discharge

The vertical mixers are equipped with new world class gearboxes, for that no sprockets or chains are required, which means low costs of maintenance.

The cut length is optimized by the restrictor blades with outside regulation, for that the equipment can be used for any type of forage.
